### Coroas de metal duro

cofan

**Coroas com placas de metal duro soldadas, esmeriladas e retificadas.**

Com canal de evacuação de aparas.  
Com limitador de profundidade.

Utilizável em superfícies planas e curvas.  
Espessura máxima até 20 mm.

## DADOS TÉCNICOS

| Ref       | Ø     |  |
|-----------|-------|-------------------------------------------------------------------------------------|
| 0971 1018 | 18 mm | 1                                                                                   |
